

MP Ionising Spray Gun X-ION

MP Ionising Spray Gun X-ION is an ionising gun that makes refinishing work even more efficient. The ionised air stream from the gun discharges statically charged surfaces in order to reduce dust inclusions significantly. The device cleans and neutralises in a single step.

- handy compressed-air operated air gun for neutralising electrostatic charge
- cleans and neutralises in a single step
- no power supply necessary
- approved according to ATEX
