

ANEST IWATA

LPH-80 (LVLP)

**Perfect for spot and smart repair with
low-pressure atomisation performance**

**Wide range of fan patterns from 1cm to 10cm
fan sizes**

Available in setups from 0.4 - 1.2

**LOW PRESSURE
ATOMISATION
TECHNOLOGY**

**LOW VOLUME
LOW PRESSURE**

The LPH-80 is a Premium Quality Spray Gun for Spot Repair Applications. Specially designed for small repair jobs and hard-to-reach areas, with an ability to keep repairs small and compact. Suitable for all materials including Primer, Base coat and Clear coat.

Fine atomisation of materials makes working on spot repair simple and effective when compared to full-size spray guns. Fan patterns can be made as small as 1cm all the way to 10cm.

Stone chips, scuffs, bumper repairs, interior, leather, and wheel repairs are just a few of the tasks the LPH-80 can handle. The LPH-80 has an extremely low air consumption meaning it can be run on small compressors, this also means over-spray and material usage is considerably lower than a full-size spray gun the LPH-80 only uses 60 NI/min.

**EASY TO
MAINTAIN**

**LOW AIR
CONSUMPTION**
