

BENEFITS AT A GLANCE

- 100% Stainless Steel fluid passage
- Perfect Balance - The **SUPERNOVA** design guarantees perfect balance even when using disposable cups.
- Quick and easy release cap, No need for a removal baffle at the front of the gun
- **SUPERNOVA** constructed high precision adjusters. Offering more comfort to the profesional painter.
- Superior surface quality and ergonomic grip.

RELIABLE AND PRECISE SETTING

WS-400 and LS-400 have sturdy constructed high precision adjusters. The carefully designed grip delivers the professional painter a reliable and more importantly comfortable feeling even when wearing latex gloves.

ADVANCED SPLIT NOZZLE™ PRE ATOMIZATION TECHNOLOGY

SPLIT NOZZLE, This innovative technology has continued to evolve, this technology promises premium painting with its **WET CONTROL** nozzle system.

Lower pressure and air consumption, A flat uniformed spray pattern with a fine, consistent droplet enables easy-to-control painting overlap achieving a premium quality paint job every time.

ATOMIZING AIR FLOW cuts the paint stream and controls droplets efficiently.
