Mipa DS 4 in 1 Spray

Outstanding coverage and corrosion protection

Mipa DS 4 in 1 Spray is a fast drying, high-build acrylic single-layer paint with excellent hiding power ideal for the coating of constructions, machinery, machine parts, vehicles, etc. made of steel, galvanized substrates, aluminium, GRP, wood and commonly used plastics in the automotive sector.

The high UV, weather resistance and corrosion protection allow for interior and exterior use. Thanks to the wide range of applications, MIPA DS 4 in 1 Spray offers great time saving and flexibility in all priming and painting work.

- Fast and flexible: Corrosion protection/Primer/Top coat/High-build technology
- Adjustable fan-shaped sprayhead and additional round nozzle sprayhead (in the cap)
- Various colours and special colours available
- satin gloss
