SATA extends an invitation to technicians using solvent paint products who would like to take advantage of SATA's quality and reliability at an affordable price. For those who have or have not used SATA spray guns before, step-up and give the SATAjet 1500 B SoLV a try.

The SATAjet 1500 B SoLV in HVLP and RP provides fine finishes with cost saving transfer efficiency, keeps the required wetting using today's **Low VOC exempt solvent basecoat** or the more traditional **National Rule solvent basecoats**. The SATAjet 1500 B SoLV is also a good choice for **clearcoat** appearance, while meeting transfer efficiency and profitability expectations.

The nozzle system of the SATAjet 1500 B SoLV meets the demands for topcoat applications and delivers even material distribution throughout the entire pattern.
